Capgemini - Kolkata, West Bengal [Frontend Developer & DevOps]

Experience

- **Senior Analyst** Nov 2024 – Present
 - Worked on the development and enhancement of the **Point of Sale (POS) UI** for a large-scale enterprise **deployed across Multiple restaurant locations**, improving performance, usability, and accessibility.
 - Implemented **performance optimizations** and UI/UX improvements, reducing page load times and increasing user engagement by leveraging React best practices and responsive design principles.
 - Successfully delivered user stories, resolved critical bugs and enhancements within an Agile framework, collaborated with cross-functional teams to meet sprint timelines to ensure seamless integration.
 - Containerized the frontend application using **Docker and deployed it to AWS EKS through CI/CD pipelines**, ensuring automated, scalable, and reliable production deployments.
 - Supported infrastructure reliability by analyzing deployment logs, pod health, and application metrics.
- **Analyst** Nov 2022 – Nov 2024
 - Revamped the Point of Sale (POS) UI features by developing React components and resolving UI issues based on design and accessibility standards.
 - Worked on integration of frontend components with **backend APIs, handling data rendering**, basic state management, and UI validations.
 - Enhanced UI performance by addressing rendering inefficiencies, improving component-level optimizations, and delivering user stories while resolving UI bugs.
 - Worked with DevOps team in zero-downtime deployment strategies (Rolling and blue-green) and built CI/CD pipelines using Jenkins to ensure reliable and consistent production releases.

PROJECTS

- **Responsive e-commerce UI:** Developed a Flipkart-style e-commerce frontend using React.js, Tailwind CSS, and React Router, implementing reusable responsive components, URL-based pagination, global cart state management with Context API, and performance optimizations through pagination. **Check Link -**
- **Dashboard / Portfolio:** Built a responsive React-based portfolio with animated UI, smooth section navigation, EmailJS contact form integration, and Vercel Deployment **Check My Portfolio -**

SKILLS

- **Front-End Technologies:** React.js, Next.js, Redux Toolkit, JavaScript, TypeScript, HTML/CSS, REST APIs, Tailwind CSS
- **Programming Languages:** Java, Spring Boot(Microservices Architecture), Shell Scripting (Unix/Linux)
- **Database Systems & Version Control:** PostgreSQL, MySQL, Git, GitHub
- **DevOps Tools :**Docker, Kubernetes, Jenkins, CI/CD Pipelines, Nginx, VPCs, Subnets
- **Cloud Technologies :** AWS (EKS, ECS, EC2, IAM, Lambda, S3)

CERTIFICATION

- **AWS Certified Cloud Practitioner :**
- **AWS Certified Developer - Associate :**

EDUCATION

- **Techno India College of Technology, Kolkata** Kolkata, West Bengal
B.Tech in ECE : CGPA: 8.5+ *July 2018 – May 2022*
